## How to Read This Document

This report shows actual recorded weather conditions for every day of the Colorado state track & field championships from 2022 – 2025. Use it to plan your race-day gear, warm-up routine, and hydration strategy.

**Temp (F)** = air temperature in Fahrenheit at station height

**Conditions** = observed sky/precipitation conditions

**Wind (mph)** = sustained wind speed, averaged over a 10-minute period

**Gusts (mph)** = the strongest burst of wind recorded in that hour. In any given hour, the gust reading will be higher than the sustained wind — it captures the peak, not the average.

**Precip (in)** = precipitation in the hour ending at that time

**Humidity (%)** = relative humidity percentage

Readings at 8 AM, 10 AM, 12 PM, 2 PM, 4 PM, 6 PM, and 8 PM local time. All data from Jeffco Stadium (Lakewood).
